

EU supports SMiD Cloud through ICEX Next Program.

We are very pleased to announce that [SMiD Cloud](#), device that allows secure storage in public clouds, has gained the [Foreign Trade Institute](#)'s trust and has entered the ICEX Next Program supported by EU and Spanish Ministry of Economy and Competitiveness.

Our internationalization plan will be supported by ICEX Next Program professional advisers.

ICEX Next, previously known as [CLUB PIPE](#), is a comprehensive program that supports Spanish companies in the different phases of its international project: both in its initiation and in its market consolidation. It is a flexible program that allows the company to select the advice they need within a broad panel of outside experts.

More than 200 International Trade experts, Market Analysts in Initiation within the Trade Offices of Spain, London, Paris, Lisbon, Milan and Mexico, and a selected group of specialists in business competitiveness, offer their services to the member companies.

EUROPEAN UNION

**EUROPEAN REGIONAL
DEVELOPMENT FUND**

A WAY TO MAKE EUROPE

The group was created as a platform to generate business synergies and an open community for ICEX Next and CLUB PIPE all sectors businesses. Since 2000, the group PIPE companies has managed to increase its total export figure by 125 %, a rate 5 times higher than the total export growth in Spain.

Since 2012 the PIPE program has been replaced by ICEX Next, continuing with the objective of incorporating the internationalization strategy within Spanish SMEs. It is coordinated and funded by ICEX and ERDF.

We are very proud to be part of the program and thus help build a more innovative and safer Europe.
